data structure, algorithm
agile, scrum git, svn

Editor

Advanced

vscode eclipse

WORK EXPERIENCE (1)

Senior Engineer at ELCA **March 2015- Current**

<https://www.secutex.com/>

As a developer, I participated in product team with Agile/Scrum development process. Daily meeting with team (VN-CH). Clarifying requirement with business owner. Do work breakdown structure for User Story, defining impact, implementing & write auto test for each new feature in US. Collaborating with customer support team to analyze and fix issues in production.

- Product mindset in Agile/Scrum development
- Responsible for quality of a Frontend module that helps to visualize seat map with D3 & ExtJs
- Backend technologies Java (Spring, SpringMongo, Hibernate), Oracle, mongodb.
- Frontend technologies JavaScript (ExtJS, JQuery, React etc), CSS3 (SASS/LESS), HTML5.
- Estimation, design and development various modules.
- Bug fixing and maintenance the product.
- Mentoring new members in the team.
- Re-research and sharing new technologies with team members and co-workers.
- Coordinating with other teams in the same project.
