I'm a web developer specializing in frontend development with 2 years of experiences in Java (Spring, Hibernate) and JavaScript (ExtJs, D3, Reactjs, and Angular). I'm passionate about JavaScript. As a team player, I always proactive to share my knowledge or present a new technology to team.

SKILLS

Programing languages
Advanced

html   css   javascript   java

Framework & platform
Advanced

javascript (extjs, d3, reactjs, angular)

bootstrap, foundation

spring, springmongo, hibernate

Database
Intermediate

oracle   mongodb

Editor
Advanced

vscode   eclipse

WORK EXPERIENCE (2)

Developer at ELCA **March 2015- Current**

As a developer, I participated in product team with Agile/Scrum development process. Daily meeting with team (VN-CH). Clarifying requirement with business owner. Do work breakdown structure for User Story, defining impact, implementing & write auto test for each new feature in US. Collaborating with customer support team to analyze and fix issues in production.

- Product mindset in Agile/Scrum development
- Mentor junior in team
- Problem solving
- Responsible for quality of a Frontend module that helps to visualize seat map with D3 & ExtJs
- Backend technologies Java (Spring, SpringMongo, Hibernate), Oracle, mongodb.
- Frontend technologies JavaScript (ExtJS, JQuery, React etc), CSS3 (SASS/LESS), HTML5.

Hut Reservation System | Team lead & Frontend developer
Build a single page web application with Java (using Jersey as REST api) and AngularJS. That helps guest, climbers, mountaineers, families reserve hut.

- **Responsibilities:**
  Build a responsive web app so that user can reserve by tablet, mobile etc.
  Developing offline mode, synchronize data when network reconnect
- **Technical:**
  Java (Jersey as REST api), AngularJS, BreezeJS, Bootstrap, Angular material

Box Office | Developer
A module mostly written by ExtJS (except payment, printing). That helps operator sales their products (tickets/season ticket etc)

- **Responsibilities:**
  Develop new feature for existing module, bugs fixing
- **Technical:**
  Java, SpringMVC, DWR, ExtJS, Oracle

Seat map | Developer
A Frontend module, that helps operator draw and interact with seats which are visualized from big stadium. Some big seat map with more than 80 000 seats, that means we have to find a way to deal with a big DOM element in application but have to keep good

performance for operator.

- **Responsibilities:**
  Developing as a widget so that can reuse in others place in application (sales configuration, sale seat map in Box Office module etc)

- **Technical:**
  D3, HTML5, Canvas, SVG, ExtJS

Ticket shop | Developer

A big module that sales products on internet from portal configuration. The purpose is one shop for multiple customers with different customization by configuration portal. The operator can configure different sales channel (B2C, B2B etc) to sales products on this module

- **Responsibilities:**
  Build a scale resale channel, that ables to display more than 30 000 tickets in a page by seat map instead of a long list ticket items. Using MongoDB to save cache data instead of calling to Portal system

- **Technical:**
  Java, MongoDB, Jquery, SASS/LESS

Gravity | Developer

Develop a new landing page and embedded widget (providing as an iframe) for customer so that they can put on their website. An innovative topic, working directly with colleagues in Switzerland.

- **Responsibilities:**
  Implement REST api to provide data for Frontend. Build UI component, widget for final purpose is reused and embedded into customer website.

- **Technical:**
  Java (REST api), React, Redux

EDUCATION (1)

Bachelor Information Technology at Ho Chi Minh University of Science
2011 - 2015
